1 System Overview

1.1 Description

The system will allow worker to login by entering ID and password. After login success, worker can select some function in home page. Select view personal detail function, system will display their personal detail. In the view personal detail function, worker also can select edit function to update their personal detail. Select view working permit status function in the home page, system will display their working permit status detail.

The system will allow company to login by entering ID and password. After login success, company can add worker. Select view worker detail function, system will display the worker detail. In the worker detail screen, company can update and delete worker. Company also can apply permit for worker. Company also can go through check permit status function to view worker permit status, and also can renew the permit.

The system will allow agency staff to login by entering ID and password. After login success, staff can add company. System will display the company detail to let staff to view and update. System perform some function to let staff to help company to add their worker, view worker detail, check worker permit ,and renew the permit.

The system will allow agency manager to login by entering ID and password. After login success, manager can approve the permit for the worker. Manager also can view company and worker detail.

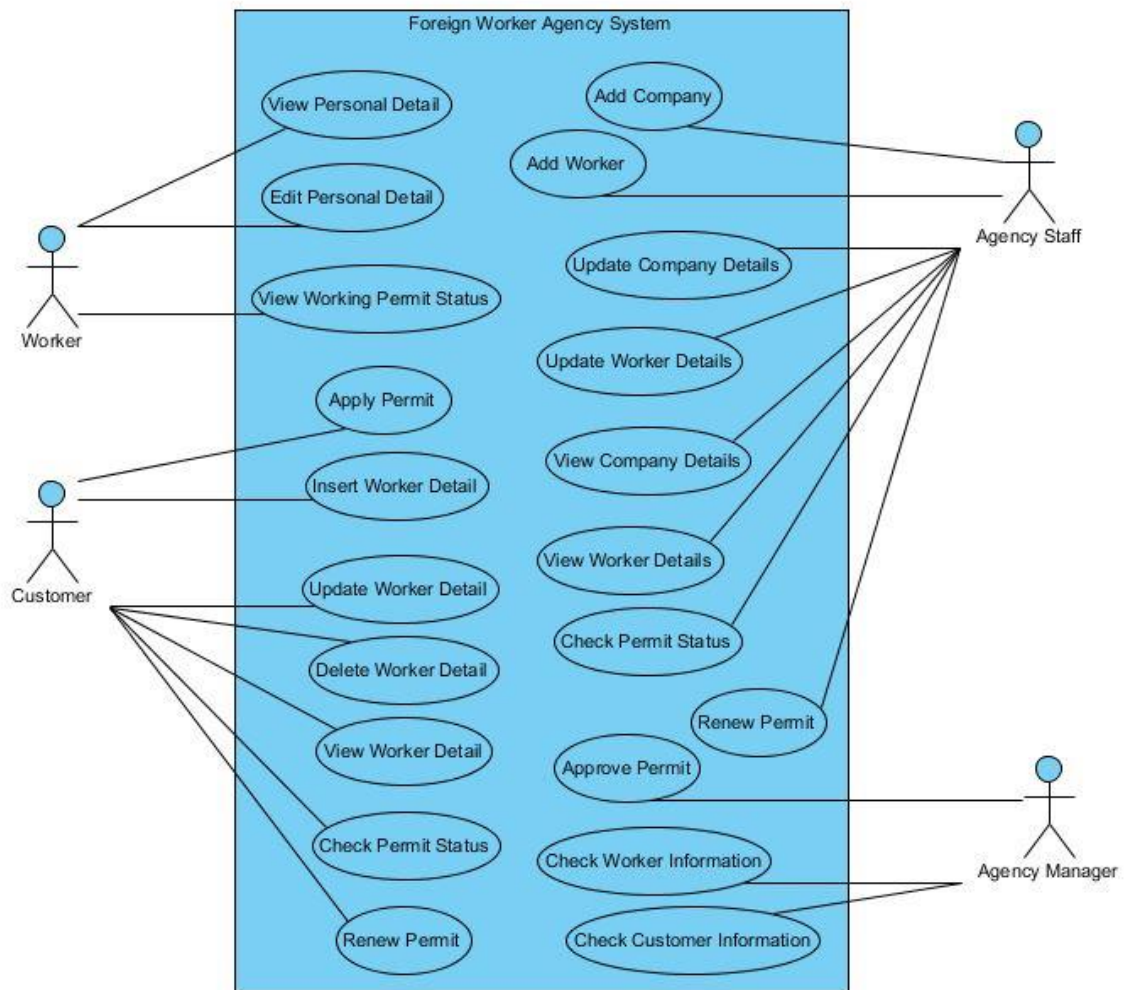

1.2 Actors

Actor	Use Case
Worker	View Personal Detail
	Edit Personal Detail
	View Working Permit Status
Company	Apply Permit
	Insert Worker Detail
	Update Worker Detail
	Delete Worker Detail
	View Worker Detail
	Check Permit Status
	Renew Permit
Agency Staff	Add Company
	Add Worker
	Update Company Detail
	Update Worker Detail
	View Company Detail
	View Worker Detail
	Check Permit Status
	Renew Permit

Agency Manager	Approve Permit
	View Company Detail
	View Worker Detail

1.3 Assumptions and Dependencies

1.4 Use Case Diagram

2 Data Design

2.1 Data Dictionary

Login Table

Field Name	Data Type	Length	Null	Description
User_id	Short Text	255	Not Null	Primary key, username for login purpose
User_password	Short Text	255	-	Login password
User_role	Short Text	255	-	Admin / Manager / Staff / Company / Worker
User_status	Number		-	1 for active, 0 for not active

Worker Table

Field Name	Data Type	Length	Null	Description
ID	Autonumber		Not Null	To keep the record on how many worker have been registered
WorkerID	Long Text	>255	-	Worker company's ID
WorkerName	Long Text	>255	-	Full name
DoB	Long Text	>255	-	Format (dd MMMM yyyy)
Address	Long Text	>255	-	Full Address
Phone	Long Text	>255	-	Format (number only)
Email	Long Text	>255	-	Personal email
CompanyName	Long Text	>255	-	Working Company
PassportNum	Long Text	>255	-	Passport Number
PassportExp	Long Text	>255	-	Format (dd MMMM yyyy)
VisaExp	Long Text	>255	-	Format (dd MMMM yyyy)
VisaStatus	Long Text	>255	-	Active / rejected / terminated / pending / No Visa
User_id	Short Text	255	-	Same as WorkerID, used for login username

Company Table

Field Name	Data Type	Length	Null	Description
ID	Autonumber		Not Null	To keep the record on how many company have been registered
CompanyID	Long Text	>255	-	Company's ID (example: 001)
CompanyName	Long Text	>255	-	Company Name
Address	Long Text	>255	-	Full Address
Phone	Long Text	>255	-	Format (number only)
Email	Long Text	>255	-	Active email

2.2 Data Structures

2.2.1 Worker Array

An array of worker elements will be used to store the list of workers to be processed. Each worker element will be as follows:

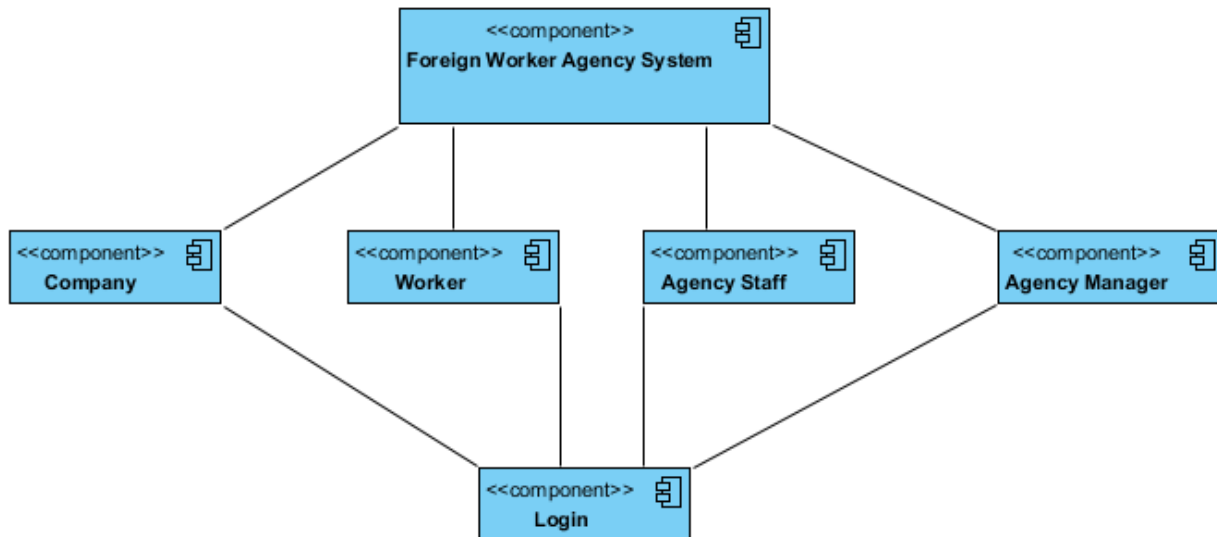

Worker

<i>ID</i>	<i>Number</i>
<i>Worker_ID</i>	<i>Text</i>
<i>Fname</i>	<i>Text</i>
<i>Lname</i>	<i>Text</i>
<i>DOB</i>	<i>Date/Time</i>
<i>Gender</i>	<i>Text</i>
<i>Nationality</i>	<i>Text</i>
<i>Address</i>	<i>Text</i>
<i>Tel</i>	<i>Text</i>
<i>Email</i>	<i>Text</i>
<i>Status</i>	<i>Text</i>
<i>Company_ID</i>	<i>Text</i>
<i>Passport_No</i>	<i>Text</i>

3 Architecture Design

3.1 Software Architecture

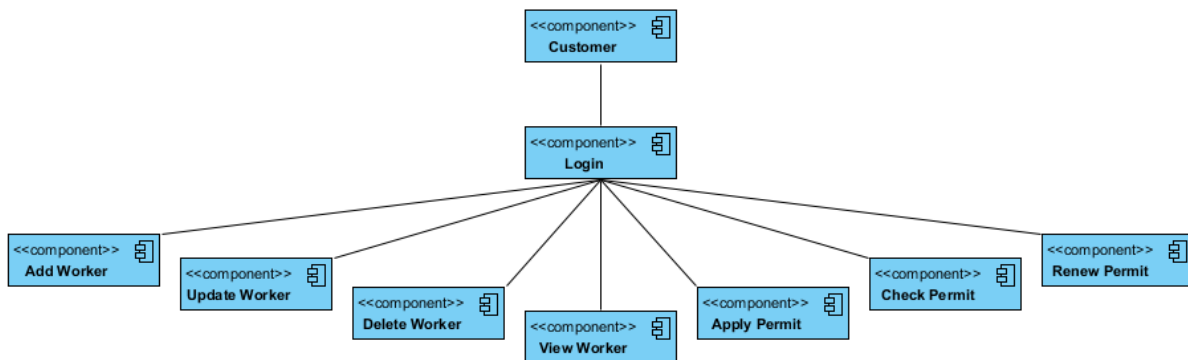

The software architecture of a computing system is the set of the structures needed to reason about the system, which comprise software elements, relations among them and properties of both.

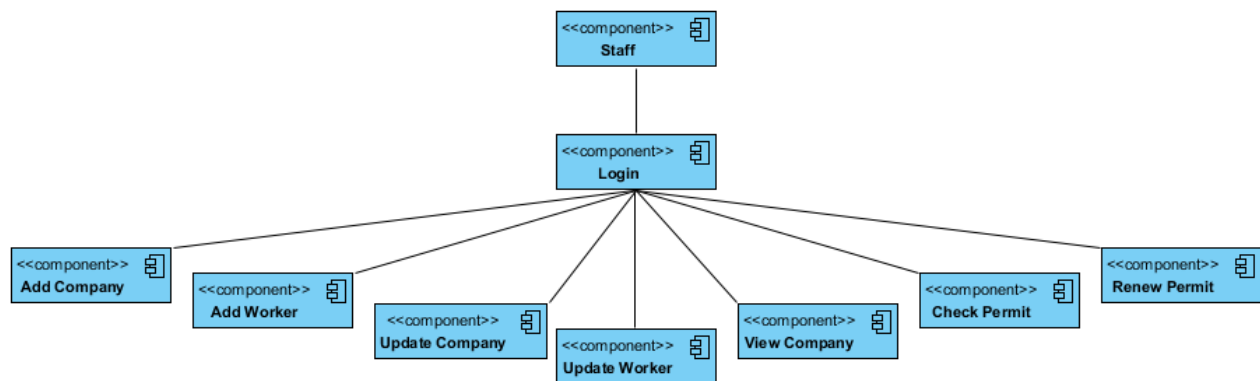

3.2 Subsystem 1

3.3 Subsystem 2

3.8 Subsystem 3

3.13 Subsystem 4

4 Interface Design

4.1 Main Screens

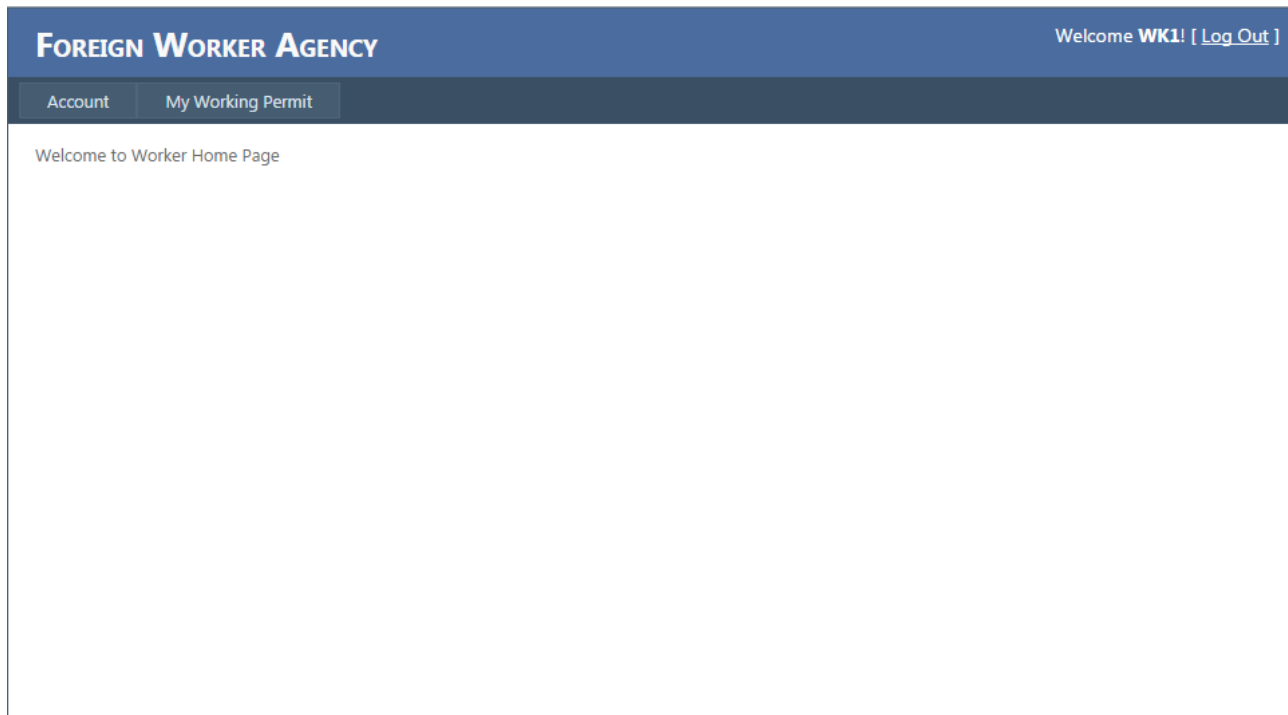

<TO DO: Describe the main screens of the system and place the screen designs here.>

4.2 Login (Worker , Company , Staff , Manager)

The screenshot shows a web application interface for the 'FOREIGN WORKER AGENCY'. At the top, there is a dark blue header with the agency name on the left and a '[Log In]' link on the right. Below the header is a navigation bar with 'Home' and 'About' links. The main content area is titled 'LOG IN' and contains the instruction 'Please enter your username and password.' Below this is a form box labeled 'Account Information' which contains two input fields: 'Username:' and 'Password:'. A 'Log In' button is positioned below the form box.

After log in success, go to the Current user role home page.

4.3 Home Page (Worker)

Worker home page have 2 menu item which is Account and My Working Permit.

4.4 View Personal Detail (Worker)
